

ReStore

Habitat for Humanity of Greater New Haven

Welcome Back, ReStore Volunteers!

We have established new policies and procedures at the ReStore to help keep our volunteers, customers, donors, and staff safe and healthy. Things will look a little different than before, so we want you to know what you should expect when you volunteer.

- All volunteers will need to bring and wear their own face masks at all times. Masks can be removed for water/snack breaks away from the main sales floor.
- We will give you a clean apron to wear during your shift so customers can identify you as a volunteer.
- Volunteers will not be allowed behind the counter. Volunteers should only be on the customer side of the counter when signing in or out for their shift.
- ReStore staff are frequently cleaning high-touch surfaces and increased cleaning opportunities will be available for volunteers.
- Volunteers and staff must disinfect the restroom after each use. Disinfectant spray and instructions for how to use it will be provided.
- Volunteers are expected to maintain social distancing by staying a safe distance from other volunteers, customers, and staff.
- Our staff will not be working if they feel unwell, and we ask that you not volunteer if you are ill.
- We need to limit the amount of volunteers inside of the store. To do this, all volunteers will need to register in VolunteerUp prior to their shift. Volunteers who do not sign up ahead of time may not be accommodated.

By following these procedures we can provide a safe, healthy, and fun volunteer experience at the ReStore. If you have any questions please contact Allison Mangles at amangles@habitatgnh.org or 203-785-0794 ext. 110.
